We were founded on January 6, 2014, and became a registered investment adviser in February 2016. Brian Thompson is the principal owner of BTF. As of 12/31/2020, BTF reports \$2,330,560 in Discretionary Assets Under Management.

Types of Advisory Services

Comprehensive Care – Personal Planning

Managing, improving and capturing opportunities within your financial life

The comprehensive care model is a collaborative approach that helps bring order to your financial life and creates a space where you can get excited about and take action towards the life you want. We work together to anticipate your life changes and financially prepare for them by regularly assessing any transitions that might come and creating the action plan necessary to address and manage them ahead of time.

During the first year, **we usually meet between six to eight times and then quarterly or semi-annually following, depending on what's going on in your life.** The meetings last an hour to an hour and a half, and the first three typically happen within three to four weeks of each other. However, we adjust to whatever pace suits you. The following is an overview of what you'll experience.

1. **Vision Meeting:** We dig deep into what matters to you most and how your money can serve you to that end. You dream big and put all of your hopes and ideas on the table. We then create a vision of your life with everything as you want it to be and prioritize your goals to help bring that dream to fruition.
2. **Organization and Obstacles Meeting:** We assess where you are now by bringing your entire financial life into one place. We review and discuss your assets and liabilities, as well as your current income and expenses. This meeting will also explore what obstacles might get in the way of your vision and how to tackle them head on.
3. **Knowledge Development Meeting:** We develop a thoughtful, intentional process for how you can use financial planning techniques to build the choice and opportunity you want in your present life and fund your future wants and needs. We focus on habits and automation to ensure that you stick to your planning.
4. **Execution Meeting:** With the energy and inspiration of your ideal life, as well as your initial financial plan in place, we work together to help you bring your vision to life as quickly as possible. We check in on the system we've set up for you. We review questions on implementation, assess your progress and give you direction where to go from here.
5. **Check-In Meetings (If necessary):** After the execution phase kicks in, we will check in on your progress, and I'll be there to help you if you go off course or something changes.
6. **Annual Renewal Meeting:** We review your progress with the implementation of your tasks and

discuss your continued need for ongoing support and next steps as we go into each new year of planning. This service also includes:

- Notes and easily digestible planning materials after every meeting.
- 24-7 access to your client portal to help keep all aspects of your life in one place.
- Collaboration with other professionals to ensure comprehensive planning.
- Yearly review of tax returns and preparation if desired (at an additional cost).
- Yearly review of employee benefits to ensure you maximize the options available to you.
- Unlimited email support from me whenever questions arise.

Fees for this service are laid out in Item 5.

Common Financial planning topics that may be discussed as a part of the Comprehensive Care program for Personal Planning, include but are not limited to:

- **Cash Flow and Debt Management:** We will conduct a review of your income and expenses to determine your current surplus or deficit along with advice on prioritizing how any surplus should be used or how to reduce expenses if they exceed your income. Advice may also be provided on which debts to pay off first based on factors such as the interest rate of the debt and any income tax ramifications. We may also recommend what we believe to be an appropriate cash reserve that should be considered for emergencies and other financial goals, along with a review of accounts (such as money market funds) for such reserves, plus strategies to save desired amounts.
- **College Savings:** Includes projecting the amount that will be needed to achieve college or other post-secondary education funding goals, along with advice on ways for you to save the desired amount. Recommendations as to savings strategies are included, and, if needed, we will review your financial picture as it relates to eligibility for financial aid or the best way to contribute to grandchildren (if appropriate).
- **Employee Benefits Optimization:** We will provide review and analysis as to whether you, as an employee, are taking the maximum advantage possible of your employee benefits.
- **Estate Planning:** This usually includes an analysis of your exposure to estate taxes and your current estate plan, which may include whether you have a will, powers of attorney, trusts and other related documents. Our advice also typically includes ways for you to minimize or avoid future estate taxes by implementing appropriate estate planning strategies such as the use of applicable trusts. We always recommend that you consult with a qualified attorney when you initiate, update, or complete estate planning activities. We may provide you with contact information for attorneys who specialize in estate planning when you wish to hire an attorney for such purposes. From time-to-time, we will participate in meetings or phone calls between you and your attorney with your approval or request.
- **Financial Goals:** We will help clients identify financial goals and develop a plan to reach them. We will identify what you plan to accomplish, what resources you will need to make it happen, how much time you will need to reach the goal and how much you should budget for your goal.

- **Insurance:** Review of existing policies to ensure proper coverage for life, health, disability, long-term care, liability, home and automobile.
- **Investment Analysis:** This may involve developing an asset allocation strategy to meet client's financial goals and risk tolerance, providing information on investment vehicles and strategies, reviewing employee stock options, as well as assisting you in establishing your own investment account at a selected broker/dealer or custodian. The strategies and types of investments we may recommend are further discussed in Item 8 of this brochure.
- **Retirement Planning:** Our retirement planning services typically include projections of your likelihood of achieving your financial goals, typically focusing on financial independence as the primary objective. For situations where projections show less than the desired results, we may make recommendations, including those that may impact the original projections by adjusting certain variables (e.g., working longer, saving more, spending less, taking more risk with investments).

If you are near retirement or already retired, advice may be given on appropriate distribution strategies to minimize the likelihood of running out of money or having to adversely alter spending during your retirement years.

- **Risk Management:** A risk management review includes an analysis of your exposure to major risks that could have a significant adverse impact on your financial picture, such as premature death, disability, property and casualty losses, or the need for long-term care planning. Advice may be provided on ways to minimize such risks and about weighing the costs of purchasing insurance versus the benefits of doing so and, likewise, the potential cost of not purchasing insurance ("self-insuring").
- **Tax Planning Strategies:** Advice may include ways to minimize current and future income taxes as a part of your overall financial planning picture. For example, we may make recommendations on which type of account(s) or specific investments should be owned based in part on their "tax efficiency," with consideration that there is always a possibility of future changes to federal, state or local tax laws and rates that may impact your situation.

We recommend that you consult with a qualified tax professional before initiating any tax planning strategy, and we may provide you with contact information for accountants or attorneys who specialize in this area if you wish to hire someone for such purposes. We will participate in meeting or phone calls between you and your tax professional.

Comprehensive Care: Business Planning

Managing, improving and capturing opportunities within your financial life

The comprehensive care model is a collaborative approach that helps bring order to your financial life and creates a space where you can get excited about and take action towards the life you want. We work together to anticipate your life changes and financially prepare for them by regularly assessing any transitions that might come and creating the action plan necessary to address and manage them ahead of time.

The comprehensive care model for business planning involves two phases:

Phase 1 – Discovery: In this phase, we discover who you are, what you want and what resources you have to build the business of your dreams. I often use a jigsaw puzzle analogy to describe this phase. Almost all of us have struggled to reconcile the beautiful picture on the puzzle box top with the hundreds of scattered pieces inside. I help you get clarity around what the picture on your box top looks like and analyze what pieces inside we have to work with. I do this through a combination of the art of financial planning (clarifying your passion behind your business, your vision and the values you use as a lens for your decisions), as well as the science of financial planning (figuring out how your cash flow, business structure taxes, etc. all fit together)

We will have approximately two or three meetings, and I will deliver a comprehensive business summary, as well as an organized presentation and proposal for the next phase.

Phase 2- Ongoing Support and Care: This phase involves setting up the foundational structure for your mission-driven business, as well as responding, advocating and creating conditions for success. Specifically, we will address any business structure changes, set up a cash flow system that makes you profitable from day one, implement proper bookkeeping and maximize your use of business tax advantages. We will also address retirement planning (like setting up Solo 401ks), scenario plan, set up buy-sell agreements, adjust employee benefits and develop exit strategies that are all in line with the purpose, vision and values we discovered in Phase 1.

Deliverables and meeting structure will vary and will be outlined in your proposal.

Fees for this service are laid out in Item 5.

Common Financial planning topics that may be discussed as a part of the Comprehensive Care – business planning program, include but are not limited to:

- **Cash Flow and Debt Management:** We will conduct a review of your business income and expenses to determine your current surplus or deficit along with advice on prioritizing how any surplus should be used or how to reduce expenses if they exceed your income. We will also provide a structure that focuses on profitability, bank balance accounting and leveraging your current habits rather than changing them. Advice may also be provided on which debts to pay off first based on factors such as the interest rate of the debt and any income tax ramifications. We may also recommend what we believe to be an appropriate cash reserve that should be considered for emergencies and other financial goals, along with a review of accounts (such as money market funds) for such reserves, plus strategies to save desired amounts.
- **Employee Benefits Optimization:** We will provide review and analysis as to whether you, as an employer, are taking the maximum advantage of the benefits you provide employees. We will consider and/or recommend the various benefit programs that can be structured to meet both business and personal retirement goals.
- **Estate Planning:** This usually includes an analysis of your exposure to estate taxes and your

current estate plan, which may include whether you have a will, powers of attorney, trusts and other related documents. Our advice also typically includes ways for you to minimize or avoid future estate taxes by implementing appropriate estate planning strategies such as the use of applicable trusts. As a business owner, this will include reviewing buy-sell agreements and developing exit strategies for your business. We always recommend that you consult with a qualified attorney when you initiate, update, or complete estate planning activities. We may provide you with contact information for attorneys who specialize in estate planning when you wish to hire an attorney for such purposes. From time-to-time, we will participate in meetings or phone calls between you and your attorney with your approval or request.

- **Goals Setting:** We will help clients identify business goals and develop a plan to reach them. We will identify what you plan to accomplish, values to use as a lens to achieve your goals, what resources you will need to make it happen, how much time you will need to reach the goal and how much you should budget for your goal.
- **Insurance:** Review of existing policies to ensure proper coverage for malpractice, overhead insurance and other business liability insurances.
- **Investment Analysis:** This may involve developing an asset allocation strategy to meet client's financial goals and risk tolerance, providing information on investment vehicles and strategies, reviewing employee stock options, as well as assisting you in establishing your own investment account at a selected broker/dealer or custodian. The strategies and types of investments we may recommend are further discussed in Item 8 of this brochure.
- **Retirement Planning:** Our retirement planning services typically include projections of your likelihood of achieving your financial goals, typically focusing on financial independence as the primary objective. For situations where projections show less than the desired results, we may make recommendations, including those that may impact the original projections by adjusting certain variables (e.g., working longer, saving more, spending less, taking more risk with investments). We will also review specific retirement vehicles that you can take advantage as a business owner like a Individual 401k, SEP IRA, Simple IRA or Company 401k.
- **Risk Management:** A risk management review includes an analysis of your exposure to major risks that could have a significant adverse impact on your financial picture, such as premature death, disability, property and casualty losses, or the need for long-term care planning. Advice may be provided on ways to minimize such risks and about weighing the costs of purchasing insurance versus the benefits of doing so and, likewise, the potential cost of not purchasing insurance ("self-insuring").
- **Tax Planning Strategies:** Advice may include ways to minimize current and future income taxes as a part of your overall financial planning picture. For example, we may make recommendations on the deductibility of certain types of expenses, the most advantageous business structure and how your business taxes may affect your personal taxes.

We recommend that you consult with a qualified tax professional before initiating any tax planning strategy, and we may provide you with contact information for accountants or attorneys who specialize in this area if you wish to hire someone for such purposes. We will participate in meeting

or phone calls between you and your tax professional.

Investment Advisory Services

We offer investment advisory services as part of our Comprehensive Care programs, through use of third-party money managers (“Outside Managers”) for portfolio management services. Clients who participate in this service through either Comprehensive Care program will receive Investment Advisory Services with no additional fee charged by BTF. The outside manager’s fee will still apply. We assist clients in selecting an appropriate allocation model, completing the Outside Manager’s investor profile questionnaire, interacting with the Outside Manager and reviewing the Outside Manager. Our review process and analysis of outside managers is further discussed in Item 8 of this Form ADV Part 2A. Additionally, we will meet with the client on a periodic basis to discuss changes in their personal or financial situation, suitability, and any new or revised restrictions to be applied to the account. Fees pertaining to this service are outlined in Item 5 of this brochure.

Client Tailored Services and Client Imposed Restrictions

We offer the same suite of services to all of our clients. However, specific client services and their implementation are dependent upon the client Investment Policy Statement which outlines each client’s current situation (income, tax levels and risk tolerance levels) and is used to construct a client specific plan to aid in the selection of a portfolio that matches restrictions, needs and targets.

Wrap Fee Programs

We do not participate in wrap fee programs.

Item 5: Fees and Compensation

Please note, unless a client has received the firm’s disclosure brochure at least 48 hours prior to signing the investment advisory contract, the investment advisory contract may be terminated by the client within five (5) business days of signing the contract without incurring any advisory fees. How we are paid depends on the type of advisory service we are performing. Please review the fee and compensation information below.

Comprehensive Care: Personal Planning

The fee for this service is based on total gross income and/or total business revenue. This service has three tiers:

- Tier 1 - \$0 - \$250,000 has a minimum cost of \$6,000 annually
- Tier 2 - \$250,001 - \$500,000 has a minimum cost of \$8,000 annually
- Tier 3 - \$500,001 and above has a minimum cost of \$10,000 annually

The minimum cost will be debited monthly or quarterly. Fees may be adjusted if there are added complexities such as owning multiple real estate properties, stock options, complex investment strategies etc. You will receive a clear statement and explanation of your annual fee before you are

asked to sign the service agreement. Termination may be requested with 30 days written notice. Upon cancellation, since 30 days written notice is required, no further fees will be due, and no refunds will be processed as there will be no unearned fees, if paying on a monthly basis. If paying quarterly, any unearned fee for the quarter will be refunded to the client. BTF will not bill an amount above \$500.00 more than 6 months in advance of the service being rendered.

Comprehensive Care: Business Planning

Fees for this service are assessed in phases. For the initial discovery phase the cost starts at \$2,000 for new businesses, and at \$4,000 for businesses with over 1 year in operation. Fees are negotiable and based on complexity and needs of the client. Common complexity factors include but are not limited to revenues of business, balance sheet and P&L complexity, business structure, and number of participants in the planning engagement.

After the first phase has been completed, BTF will then provide an estimated cost for the second phase: ongoing support and care. **The minimum costs for this Phase is \$6,000/year for new businesses and \$10,000 for business in operation over a year.** Deliverables and meeting structure will vary and will be outlined in your proposal. Costs are negotiable and based on the needs of the client. Common complexity factors include revenues of the business, the type of implementation and administration needed, and the amount of people involved. The exact fee will be notated on a second financial planning agreement signed by the client prior to the commencement of the engagement.

The client will retain the option to pay the entire payment upfront, or monthly advance over the estimated duration of the engagement. For payments made monthly in advance, BTF will provide an estimated period of time for the engagement at the commencement of the engagement, and document this period on the financial planning agreement. For fees paid up front, the engagement will be completed within the first 6 months after payment, so BTF does not require or solicit prepayment of more than \$500 in fees per client six months in advance. Fees are paid by electronic funds transfer. For engagements in which fees are paid upfront, clients may cancel with 30 days' written notice. Upon cancellation, any unearned fee will be prorated and refunded. For fees paid monthly in advance, clients may cancel with 30 days' written notice. Since the termination period equals the monthly payment frequency, no refunds will be due upon termination, and no further fees will be charged.

Investment Advisory Services

The standard advisory fee is based on the market value of the account and is calculated as follows:

| Account Value | Annual Advisory Fee | Betterment Fee |
|----------------------------------|----------------------------|-----------------------|
| Under \$1,000,000 | 0.40% | 0.20% |
| \$1,000,001 - \$3,000,000 | 0.35% | 0.20% |
| \$3,000,001 and Above | 0.25% | 0.20% |

The annual fees are negotiable and are pro-rated and paid in arrears on a quarterly basis. The Outside Manager will debit the client's account for both the Outside Manager's fee, and BTF's advisory fee, and will remit BTF's fee to BTF. No increase in the annual fee shall be effective without agreement from the client

by signing a new agreement or amendment to their current advisory agreement.

Accounts initiated or terminated during a calendar quarter will be charged a prorated fee based on the amount of time remaining in the billing period. An account may be terminated with written notice at least 15 calendar days in advance. Since fees are paid in arrears, no rebate will be needed upon termination of the account.

Note: Comprehensive care clients do not pay investment advisory services fees. Investment advisory fees are included with comprehensive care services.

Other Types of Fees and Expenses

Our fees are exclusive of brokerage commissions, transaction fees, and other related costs and expenses which may be incurred by the client. Clients may incur certain charges imposed by custodians, brokers, and other third parties such as custodial fees, deferred sales charges, odd-lot differentials, transfer taxes, wire transfer and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Mutual fund and exchange traded funds also charge internal management fees, which are disclosed in a fund's prospectus. Such charges, fees and commissions are exclusive of and in addition to our fee, and we shall not receive any portion of these commissions, fees, and costs.

Item 12 further describes the factors that we consider in selecting or recommending broker-dealers for client's transactions and determining the reasonableness of their compensation (e.g., commissions).

We do not accept compensation for the sale of securities or other investment products including asset-based sales charges or service fees from the sale of mutual funds.

Item 6: Performance-Based Fees and Side-By-Side Management

We do not offer performance-based fees.

Item 7: Types of Clients

We provide financial planning and portfolio management services to individuals, high net-worth individuals and corporations or other businesses.

We do not have a minimum account size requirement.

Item 8: Methods of Analysis, Investment Strategies and Risk of Loss

Our primary investment strategy is passive investment.

Passive Investment Management

We primarily practice passive investment management. Passive investing involves building portfolios that are comprised of various distinct asset classes. The asset classes are weighted in a manner to achieve a desired relationship between correlation, risk and return. Funds that passively capture the returns of the desired asset classes are placed in the portfolio. The funds that are used to build passive portfolios are typically index mutual funds or exchange traded funds.

Passive investment management is characterized by low portfolio expenses (i.e. the funds inside the portfolio have low internal costs), minimal trading costs (due to infrequent trading activity), and relative tax efficiency (because the funds inside the portfolio are tax efficient and turnover inside the portfolio is minimal).

In contrast, active management involves a single manager or managers who employ some method, strategy or technique to construct a portfolio that is intended to generate returns that are greater than the broader market or a designated benchmark. Academic research indicates most active managers underperform the market.

Additionally, we refer clients to third-party investment advisers (“outside managers”). Our analysis of outside managers involves the examination of the experience, expertise, investment philosophies, and past performance of the outside managers in an attempt to determine if that manager has demonstrated an ability to invest over a period of time and in different economic conditions. We monitor the manager’s underlying holdings, strategies, concentrations and leverage as part of our overall periodic risk assessment. Additionally, as part of our due-diligence process, we survey the manager’s compliance and business enterprise risks. A risk of investing with an outside manager who has been successful in the past is that he/she may not be able to replicate that success in the future. In addition, as we do not control the underlying investments in an outside manager’s portfolio. There is also a risk that a manager may deviate from the stated investment mandate or strategy of the portfolio, making it a less suitable investment for our clients. Moreover, as we do not control the manager’s daily business and compliance operations, we may be unaware of the lack of internal controls necessary to prevent business, regulatory or reputational deficiencies.

Material Risks Involved

All investing strategies we offer involve risk and may result in a loss of your original investment which you should be prepared to bear. Many of these risks apply equally to stocks, bonds, commodities and any other investment or security. Material risks associated with our investment strategies are listed below.

Market Risk: Market risk involves the possibility that an investment’s current market value will fall because of a general market decline, reducing the value of the investment regardless of the operational success of the issuer’s operations or its financial condition.

Small and Medium Cap Company Risk: Securities of companies with small and medium market capitalizations are often more volatile and less liquid than investments in larger companies. Small and medium cap companies may face a greater risk of business failure, which could increase the volatility of the client's portfolio.

Concentration Risk: Certain investment strategies focus on particular asset-classes, industries, sectors or types of investment. From time to time these strategies may be subject to greater risks of adverse developments in such areas of focus than a strategy that is more broadly diversified across a wider variety of investments.

Interest Rate Risk: Bond (fixed income) prices generally fall when interest rates rise, and the value may fall below par value or the principal investment. The opposite is also generally true: bond prices generally rise when interest rates fall. In general, fixed income securities with longer maturities are more sensitive to these price changes. Most other investments are also sensitive to the level and direction of interest rates.

Inflation: Inflation may erode the buying-power of your investment portfolio, even if the dollar value of your investments remains the same.

Risks Associated with Securities

Apart from the general risks outlined above which apply to all types of investments, specific securities may have other risks.

Exchange Traded Funds prices may vary significantly from the Net Asset Value due to market conditions. Certain Exchange Traded Funds may not track underlying benchmarks as expected.

Investment Companies Risk. When a client invests in open end mutual funds or ETFs, the client indirectly bears its proportionate share of any fees and expenses payable directly by those funds. Therefore, the client will incur higher expenses, many of which may be duplicative. In addition, the client's overall portfolio may be affected by losses of an underlying fund and the level of risk arising from the investment practices of an underlying fund (such as the use of derivatives). ETFs are also subject to the following risks: (i) an ETF's shares may trade at a market price that is above or below their net asset value; (ii) the ETF may employ an investment strategy that utilizes high leverage ratios; or (iii) trading of an ETF's shares may be halted if the listing exchange's officials deem such action appropriate, the shares are delisted from the exchange, or the activation of market-wide "circuit breakers" (which are tied to large decreases in stock prices) halts stock trading generally. The Adviser has no control over the risks taken by the underlying funds in which clients invest.

Item 9: Disciplinary Information

Criminal or Civil Actions

BTF and its management have not been involved in any criminal or civil action.

Administrative Enforcement Proceedings

BTF and its management have not been involved in administrative enforcement proceedings.

Self-Regulatory Organization Enforcement Proceedings

BTF and its management have not been involved in legal or disciplinary events that are material to a client's or prospective client's evaluation of BTF or the integrity of its management.

Item 10: Other Financial Industry Activities and Affiliations

No BTF employee is registered, or have an application pending to register, as a broker-dealer or a registered representative of a broker-dealer.

No BTF employee is registered, or have an application pending to register, as a futures commission merchant, commodity pool operator or a commodity trading advisor.

Brian Thompson, Managing Member and CCO of Brian Thompson Financial LLC is also the Managing Member of Brian Thompson Tax LLC. BTF only receives compensation directly from clients. We do not receive compensation from any outside source. We do not have any conflicts of interest with any outside party.

Recommendations or Selections of Other Investment Advisers

As referenced in Item 4 of this brochure, BTF recommends clients to Outside Managers to manage their accounts. In the event that we recommend an Outside Manager, please note that we do not share in their advisory fee. Our fee is separate and in addition to their compensation (as noted in Item 5) and will be described to you prior to engagement. You are not obligated, contractually or otherwise, to use the services of any Outside Manager we recommend. Additionally, BTF will only recommend an Outside Manager who is properly licensed or registered as an investment adviser.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal

Trading

As a fiduciary, our firm and its associates have a duty of utmost good faith to act solely in the best interests of each client. Our clients entrust us with their funds and personal information, which in turn places a high standard on our conduct and integrity. Our fiduciary duty is a core aspect of our Code of Ethics and represents the expected basis of all of our dealings. The firm also adheres to the Code of Ethics and Professional Responsibility adopted by the CFP® Board of Standards Inc. and accepts the obligation not only to comply with the mandates and requirements of all applicable laws and regulations but also to take responsibility to act in an ethical and professionally responsible manner in all professional services and activities.

Code of Ethics Description

This code does not attempt to identify all possible conflicts of interest, and literal compliance with each of its specific provisions will not shield associated persons from liability for personal trading or other conduct that violates a fiduciary duty to advisory clients. A summary of the Code of Ethics' Principles is outlined below.

- Integrity - Associated persons shall offer and provide professional services with integrity.
- Objectivity - Associated persons shall be objective in providing professional services to clients.
- Competence - Associated persons shall provide services to clients competently and maintain the necessary knowledge and skill to continue to do so in those areas in which they are engaged.
- Fairness - Associated persons shall perform professional services in a manner that is fair and reasonable to clients, principals, partners, and employers, and shall disclose conflict(s) of interest in providing such services. Confidentiality - Associated persons shall not disclose confidential client information without the specific consent of the client unless in response to proper legal process, or as required by law.
- Professionalism - Associated persons' conduct in all matter shall reflect credit of the profession.
- Diligence - Associated persons shall act diligently in providing professional services.

We periodically review and amend our Code of Ethics to ensure that it remains current, and we require all firm access persons to attest to their understanding of and adherence to the Code of Ethics at least annually. Our firm will provide of copy of its Code of Ethics to any client or prospective client upon request.

Investment Recommendations Involving a Material Financial Interest and Conflicts of Interest

Neither our firm, its associates or any related person is authorized to recommend to a client, or effect a transaction for a client, involving any security in which our firm or a related person has a material financial interest, such as in the capacity as an underwriter, adviser to the issuer, etc.

Advisory Firm Purchase of Same Securities Recommended to Clients and Conflicts of Interest

Our firm and its “related persons” do not invest in the same securities, or related securities, e.g., warrants, options or futures, which we recommend to clients.

Trading Securities At/Around the Same Time as Client’s Securities

Because our firm and its “related persons” do not invest in the same securities, or related securities, e.g., warrants, options or futures, which we recommend to clients, we do not trade in securities at or around the same time as clients.

Item 12: Brokerage Practices

Factors Used to Select Custodians and/or Broker-Dealers

Brian Thompson Financial LLC does not have any affiliation with Broker-Dealers. Specific custodian recommendations are made to client based on their need for such services. We recommend custodians based on the reputation and services provided by the firm.

Research and Other Soft-Dollar Benefits

We currently do not receive soft dollar benefits.

Brokerage for Client Referrals

We receive no referrals from a broker-dealer or third party in exchange for using that broker-dealer or third party.

Clients Directing Which Broker/Dealer/Custodian to Use

We do recommend a specific custodian for clients to use, however, clients may custody their assets at a custodian of their choice. Clients may also direct us to use a specific broker-dealer to execute transactions. By allowing clients to choose a specific custodian, we may be unable to achieve most favorable execution of client transaction and this may cost clients’ money over using a lower-cost custodian.

The Custodian and Brokers We Use

BTF does not maintain custody of your assets that we manage, although we may be deemed to have custody of your assets if you give us authority to withdraw advisory fees from your account (see Item 15—Custody, below). Your assets must be maintained in an account at a “qualified custodian,” generally a broker-dealer or bank. We may recommend that our clients use MTG, LLC dba Betterment Securities (“Betterment Securities”), a registered broker-dealer, member SIPC, as the qualified custodian.

We are independently owned and operated and are not affiliated with Betterment Securities. Betterment Securities will hold your assets in a brokerage account and buy and sell securities when we and/or you instruct them to. While we may recommend that you use Betterment Securities as custodian/broker, you will decide whether to do so and will open your account with Betterment Securities by entering into an account agreement directly with them. We do not open the account for you, although we may assist you in doing so. If you do not wish to place your assets with Betterment Securities, then we cannot manage your account on Betterment For Advisors (defined below).

Your Brokerage and Custody Costs

For our clients' accounts that Betterment Securities maintains, Betterment Securities generally does not charge you separately for custody services, but is compensated as part of the Betterment for Advisors (defined below) platform fee, which is a percentage of the dollar amount of assets in the account in lieu of commissions. We have determined that having Betterment Securities execute trades is consistent with our duty to seek "best execution" of your trades. Best execution means the most favorable terms for a transaction based on all relevant factors, including those listed above (see "Factors Used to Select Custodians and/or Broker-Dealers").

Services Available to Us via Betterment For Advisors

Betterment Securities serves as broker dealer to Betterment for Advisors, an investment and advice platform serving independent investment advisory firms like us ("Betterment for Advisors"). Betterment for Advisors also makes available various support services which may not be available to Betterment's retail customers. Some of those services help us manage or administer our clients' accounts, while others help us manage and grow our business. Betterment for Advisors' support services are generally available on an unsolicited basis (we don't have to request them) and at no charge to us. Following is a more detailed description of Betterment for Advisors support services:

SERVICES THAT BENEFIT YOU. Betterment for Advisors includes access to a range of investment products, execution of securities transactions, and custody of client assets through Betterment Securities. Betterment Securities' services described in this paragraph generally benefit you and your account.

1. **SERVICES THAT MAY NOT DIRECTLY BENEFIT YOU.** Betterment for Advisors also makes available to us other products and services that benefit us, but may not directly benefit you or your account. These products and services assist us in managing and administering our clients' accounts, such as software and technology that may:

- a. Assist with back-office functions, recordkeeping, and client reporting of our clients' accounts.
- b. Provide access to client account data (such as duplicate trade confirmations and account statements).
- c. Provide pricing and other market data.

2. SERVICES THAT GENERALLY BENEFIT ONLY US. By using Betterment for Advisors, we will be offered other services intended to help us manage and further develop our business enterprise. These services include:

- a. Educational conferences and events.
- b. Consulting on technology, compliance, legal, and business needs.
- c. Publications and conferences on practice management and business succession.

Our Interest in Betterment Securities' Services

The availability of these services from Betterment for Advisors benefits us because we do not have to produce or purchase them. In addition, we don't have to pay for Betterment Securities' services. These services may be contingent upon us committing a certain amount of business to Betterment Securities in assets in custody. We may have an incentive to recommend that you maintain your account with Betterment Securities, based on our interest in receiving Betterment For Advisors and Betterment Securities' services that benefit our business rather than based on your interest in receiving the best value in custody services and the most favorable execution of your transactions. This is a potential conflict of interest. We believe, however, that our selection of Betterment Securities as custodian and broker is in the best interests of our clients. Our selection is primarily supported by the scope, quality, and price of Betterment Securities' services and not Betterment for Advisors and Betterment Securities' services that benefit only us.

BTF Schwab Intelligent Portfolios™ Program BTF may also utilize for certain lower asset balance clients the Institutional Intelligent Portfolios™ Program platform sponsored by Schwab Wealth Investment Advisory, Inc. (the "Program" and "SWIA," respectively). SWIA is an unaffiliated SEC registered third party service provider which offers an electronic algorithms platform which ensures client portfolios are aligned with the client's investment objective and risk tolerance via model portfolios. Under this automated investment advisory program, trading and rebalancing is determined via an algorithm based on model portfolios created by BTF, with cash flows and dividends used to keep the portfolio in balance. Also referred to as "robo-advisory services", SWIA provides BTF with the technology platform to automate the management of portfolios of ETFs and mutual fund securities, provides sub-advisory services and acts in a discretionary capacity to the client's account. Any clients that use the Program will receive the SWIA Program Disclosure Brochure ("Program Disclosure Brochure") from SWIA which includes a more detailed description and additional information.

BTF may also participate in the Schwab Advisor Services (SAS) services program offered to independent investment advisors by Charles Schwab & Company, Inc., ("Schwab") Schwab and is an unaffiliated SEC-registered broker dealers and FINRA/SIPC member broker dealers. Each offer to independent advisors, services which include custody of securities, trade execution, clearance and settlement transactions. For clients participating in the Schwab Intelligent Portfolios™ Program, clients will utilize the brokerage services of Charles Schwab & Co., Inc. ("CS &Co") offered to independent investment advisers. CS&Co is also FINRA

member and member of SIPC Aggregating (Block) Trading for Multiple Client Accounts.

Aggregating (Block) Trading for Multiple Client Accounts

Outside Managers used by BTF may block client trades at their discretion. Their specific practices are further discussed in their ADV Part 2A, Item 12.

Item 13: Review of Accounts

Client accounts with the Investment Management Service will be reviewed regularly on a quarterly basis by Brian E. Thompson, Managing Member and CCO. The account is reviewed with regards to the client's investment policies and risk tolerance levels. Events that may trigger a special review would be unusual performance, addition or deletions of client-imposed restrictions, excessive draw-down, volatility in performance, or buy and sell decisions from the firm or per client's needs.

Clients will receive trade confirmations from the broker(s) for each transaction in their accounts as well as monthly or quarterly statements and annual tax reporting statements from their custodian showing all activity in the accounts, such as receipt of dividends and interest.

BTF will provide written reports to Investment Management clients on a quarterly basis. We urge clients to compare these reports against the account statements they receive from their custodian.

Item 14: Client Referrals and Other Compensation

We do not receive any economic benefit, directly or indirectly, from any third party for advice rendered to our clients. Nor do we, directly or indirectly, compensate any person who is not advisory personnel for client referrals.

Brian E. Thompson also prepares taxes and provides tax representation through Brian Thompson Tax LLC (BTT). This activity accounts for approximately 10% of Mr. Thompson's time during trading hours. Brian E. Thompson may refer Financial Planning clients to BTT for on-going bookkeeping from time to time.

We receive a non-economic benefit from Betterment for Advisors and Betterment Securities in the form of the support products and services it makes available to us and other independent investment advisors whose clients maintain their accounts at Betterment Securities. These products and services, how they benefit us, and the related conflicts of interest are described above (see Item 12—Brokerage Practices). The availability to us of Betterment for Advisors and Betterment Securities' products and services is not based on us giving particular investment advice, such as buying particular securities for our clients. Item 15: Custody

BTF does not accept custody of client funds. Clients should receive at least quarterly statements from the broker dealer, bank or other qualified custodian that holds and maintains client's investment assets. We urge you to carefully review such statements and compare such official custodial records to the account statements or reports that we may provide to you. Our statements or reports may vary from custodial statements based on accounting procedures, reporting dates, or valuation methodologies of certain securities.

For client account in which BTF directly debits their advisory fee:

- i. BTF will send a copy of its invoice to the custodian at the same time that it sends the client a copy.
- ii. The custodian will send at least quarterly statements to the client showing all disbursements for the account, including the amount of the advisory fee.
- iii. The client will provide written authorization to BTF, permitting them to be paid directly for their accounts held by the custodian.

Item 16: Investment Discretion

For those client accounts where we provide investment advisory services, we maintain discretion over client accounts with respect to securities to be bought and sold and the amount of securities to be bought and sold. Investment discretion is explained to clients in detail when an advisory relationship has commenced. At the start of the advisory relationship, the client will execute a Limited Power of Attorney, which will grant our firm discretion over the account. Additionally, the discretionary relationship will be outlined in the advisory contract and signed by the client. Clients may impose reasonable restrictions on investing in certain securities, types of securities, or industry sectors.

Item 17: Voting Client Securities

We do not vote Client proxies. Therefore, Clients maintain exclusive responsibility for: (1) voting proxies, and (2) acting on corporate actions pertaining to the Client's investment assets. The Client shall instruct the Client's qualified custodian to forward to the Client copies of all proxies and shareholder communications relating to the Client's investment assets. If the client would like our opinion on a particular proxy vote, they may contact us at the number listed on the cover of this brochure.

In most cases, you will receive proxy materials directly from the account custodian. However, in the event we were to receive any written or electronic proxy materials, we would forward them directly to you by mail, unless you have authorized our firm to contact you by electronic mail, in which case,

would forward you any electronic solicitation to vote proxies.

Item 18: Financial Information

Registered Investment Advisers are required in this Item to provide you with certain financial information or disclosures about our financial condition. We have no financial commitment that impairs our ability to meet contractual and fiduciary commitments to clients, and we have not been the subject of a bankruptcy proceeding.

We do not have custody of client funds or securities or require or solicit prepayment of more than \$500 in fees per client six months in advance.

Item 19: Requirements for State-Registered Advisers

Brian E. Thompson, JD, CFP®

Born: 1979

Educational Background

- 2005 – Juris Doctor, Boston University School of Law
- 2001 – Bachelor of Arts, Philosophy and English Composition, DePauw University

Business Experience

- 01/2017 – Present, Brian Thompson Tax LLC, Managing Member
- 01/2014 – Present, Brian Thompson Financial LLC, Managing Member and CCO
- 04/2007 – 07/2016, American Tax Solutions, Inc., Associate Attorney
